ABOUT ME

I excelled in my internship by showcasing my adaptability and efficiency in team settings. With a strong commitment to continuous learning, I quickly embrace new technologies. I am eager to leverage my skills in web and mobile development to contribute to innovative and challenging projects, and I am excited about the opportunity to join your team and drive success together.

WORK EXPERIENCE

Network technicians , Ptv Telecom , Málaga
Sep 2005 -Aug 2022

- Performed installation and maintenance of outdoor and indoor fiber lines, using OTDR (Optical Time Domain Reflectometer) and SDH/PDH/GbEthernet Analyze.
- Managed customer failures with the services.
- Installed telecommunication networks in small companies (router, switch, TCP/IP and ONT) as well as their configuration and maintenance.

Intership , Ademass , Málaga
Apr 2024 - Jul 2024

- Cypress: Executed end-to-end testing with Cypress to enhance the quality and reliability of web applications.
- Laravel: Developed robust and scalable backend applications, integrating complex functionalities and ensuring data integrity.
- Ionic: Created cross-platform mobile applications with Ionic, delivering engaging user interfaces for both iOS and Android.
- TypeScript: Elevated code quality and maintainability by leveraging static typing features.
- Git: Utilized Git for version control, streamlining collaborative development and maintaining comprehensive change history in software projects.
